** BOLIVIA. 3310, July 24 at 0140, quick check of SAm frequencies while Bonaire SDR is active, finds open carrier here at S8/9+5, presumably R. Mosoj Chaski, Cochabamba - aha, WRTH shows closing time is 0130* (Glenn Hauser, OK, WOR)

** BRAZIL. 11754.46 approx., July 30 at 0618, JBA carrier, no doubt R. Voz Missionária, nominal 11750 which used to vary slightly below that. But Rudolf Grimm first reported it closer to 11755:

``11754.11 kHz: Radio Voz Missionaria, Camboriú SC: 29/07 1518 15321. In summary (at this time, July 29, 2318 UTC):
5940.3 kHz: Operating. 15321. During today, 45554.
9664.96 kHz: Noticeable oscillations, as if someone were working on the transmitter. During the last check, the signal suddenly spiked to 45554, but less than 10 seconds later, it returned to its minimum.
11750.0 kHz: An extreme weak signal. A male voice murmur can be heard in the background, typical of RVM. 15211. After some time, this pattern can change completely. Hi Glenn, Now, 30/07 0212 UTC, RVM again on 11754.40. 73, Rudolf Grimm``

Then I also get a JBA signal at 0620 July 30 about 9664.94 (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, July 24 at 0153, RNA/RNB token English preëmpted by silly ballgame in Brazuguese, checking Bonaire remote unnecessarily (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB or 15034 USB, Trenton Military: I was wondering if anyone had heard it lately. On July 24, one reply: ``Heard Trenton on UT 20 July at 0659 UT. Weather forecasts for Vancouver and Victoria BC. Tony Pavick, Hope BC`` -- OK, that was 4 days ago already; anything since? (Glenn Hauser, OK, WOR)

** CANADA [non]. Tnx to Tony Pavick for QSL in mail and enclosures for the Canada Day DRM broadcast via Woofferton UK, July 2 at 0333 on 11960:
154. https://www.w4uvh.net/PopShopQSL_envelope.jpg

156. https://www.w4uvh.net/PopShop_BCFlagpatch.jpg
157. https://www.w4uvh.net/PopShop_MooseHidesample.jpg
or via http://www.worldofradio.com/QSL.html
(Glenn Hauser, OK, WOR)

** CANADA [non]. 6160 -74 Hz = 6159.924, July 26 at 0000 this WBCQ has cut on with ambient music, Morse Code, numbers in English and later German, i.e. `Requiem for Radio`, Amanda Dawn Christie`s opus scheduled for this hour but unknown frequency of WBCQ and WWCR. Never found this time on WWCR, despite checking all known frequencies, even at wrong hours, and even those registered only imaginarily.

I quickly check out the others which were publicized: WRMI 17790 is JBA but I hear some mentions of RCI; 15770 is VG S9+10/15 into NH SDR so I keep listening mainly there. 15290 via TDF Issoudun FRANCE puts a VG S9+20/30 signal into NH, presumably aimed thataway, but initially seems JBM if not OC. Later it`s louder and certainly also RfR = which is supposed to be on 5 different transmitters at once, with 5 different audios, so to properly experience it, one needs five radios with good reception and 5 speakers spaced around one?

At 0058, 15290 cuts to the Cuban national anthem, and R. República ID, oops! until 0059* - that of course being on the RMI feed to ISS for the 9490 broadcast at 0100. After that, however, 15290 still has a weaker hummy carrier. At 0100, 6160 plays the IRA ad like we hear

infesting the WWCR stream openings, but it`s certainly WBCQ, and into Hal Turner. RfR was during the same hour as `AAAWWW` on WBCQ 7490 & 9330 which fortunately turned out to be a repeat.

See my previous report for more details about `Requiem for Radio`, from WRMI FB, which showed the next and apparently final broadcast as 2000-2100 UT Sat July 26: 15770 (WRMI), 9395 (WRMI), 21600 (TDF); and probably 9980 (WWCR), but where on WBCQ? Since ADC put so much effort into this project, it`s a shame she did not clue us all in advance about the details (Glenn Hauser, OK, WOR)

** CANADA [non]. 9980, July 26 at 1958, this WWCR is now on, not a few minutes earlier when checked, outro of gospel huxter Radiobible.org, so it may carry from 2000 another repeat of `Requiem for Radio`, ambient sounds mixed with Morse code, JBA spy numbers, etc., Amanda Dawn Christie`s tribute to the destroyed RCI Sackville. This time I find the also unpublicized WBCQ frequency, 7490 which is only S5/S8 into Maryland SDR, while 9980 is blasting in here as usual. Also on WRMI 15770 with a good signal into easterly remotes, and audible on 9395. The fifth frequency is 21600 via TDF Issoudun; all I hear there at first is a hum on the carrier. Like last time, 9980 followed at 2100 with an old unscheduled Pat Boone show until unknown time turnoff (Glenn Hauser, OK, WOR)

** CUBA. 13780.00, July 25 at 2345, RHC S7/9+10 with music into UTwente and good modulation. At 2359 RHC IS, VG into Maryland SDR and off shortly after. Now this remote reads 66/67 Hz high, since WWV 15000 also looks likewise.

13780, July 26 at 1441, RHC Spanish, S7 into Maryland SDR, but at 1444 JBA carrier direct.

26 de julio: time for my annual tribute to The Revolution, parody of their favorite slogan; again I invite photographic evidence of this being scrawled on any public surface, however briefly, inside Cuba:

PATRIA O SUERTE, ¡PENSAREMOS! which could be loosely translated, ``Fatherland or Fortune, we`ll think about it!`` i.e., get out of here for a better life (Glenn Hauser, OK, WOR)

** CUBA. 6000, July 27 at 0215, RHC S9+25/35, sounds like a TV drama soundtrack again, Spanish dialog with music background. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15230, July 28 at 2205, RHC almost dead air but suptorted, S6/S7 direct; while 13780 is S9+10/20 with good modulation in Spanish. A report of 15290 presumed RHC was really RMI via TDF with `Requiem for Radio` (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 29 at 2214, RHC NF missing, while OF 15230 is on with S9+10/20 of dead air. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 30 at 2210, RHC not off the air, S9+10/20 with good mod in Spanish. 15230 is S9 but extremely suptorted, and not //, perhaps Portuguese (Glenn Hauser, OK, WOR)

** CUBA [non]. 9565, July 24 at 2016, R. Martí is on now but JBA (Glenn Hauser, OK, WOR)

** EAST TURKISTAN [and non]. 17615, July 28 at 0508, nice music with bells, S9/+10 direct, the SSOB except for NZ 17675. EiBi & Aoki show CRI in German via Urumqi; so totally replaced by music fill? (Glenn Hauser, OK, WOR)

** GERMANY. 11655, July 30 at 0614, something goes off at 0615* shortly after tune-in. Aoki shows Bible Voice Broadcasting in Arabic via Nauen at 0600-0615 only - but also: NHK in Arabic via France at 0600-0620! No sign of that so maybe collision already resolved. EiBi lax the latter, only Nauen. Japan/France on 17660 instead (Glenn Hauser, OK, WOR)

** MEXICO. 739.95, July 25 at 0636 UT, LAH against 740.0 KRMG, no doubt the usual XEQN, R. Fórmula, Torreón, Coahuila as in mwofsets on 739.947, ranging to 740.06 {not 730.06 typo in original report - but I`ve never heard anyhet on the plus side} and supposedly off after 0600. It shows KRMG Tulsa on 740.0008 to .0010. On internal randomwire around the ceilings after lightning storm. LAH = low audible heterodyne (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, July 24 at 0610, JBA carrier, presumed YHWH. Rick Barton had reported this: ``7/24, 0359, Josiah's intonation suddenly just popped up on the channel. Mixing heavily with channel static and noise at 0400 (Rick Barton,  AZ)`` Ron Howard was hearing it at 0520 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 960, July 25 at 0633 & 0639 UT, dead air from KGWA Enid. Probably interrupted by power failure during huge lightning storm a few hours earlier. I should have checked what`s on their 100.9 translator (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1640, KZLS Enid: I ran across a notepad imprinted as ALL AG All Day KOAG 1640 AM, 405-633-1099. I hardly recalled such a callsign for this local station, so looked up facility 87168 at FCC LMS:

Call Sign History Begin Date
KZLS 09/30/2013
KOAG 01/01/2013
KFXY 03/30/2005
KFNY 02/16/2004
KMMZ 09/15/2003
KMKZ 11/24/2000
KMMZ 06/30/2000
KBFQ 05/15/1998

So it lasted only 9 months in 2013y. Enid`s AC is 580, already in effect then: ``580 was created by splitting from 405 on 1 November 1997``. It`s almost always pretended to be an OKC station, complete with direxional pattern thataway from site east of Hennessey. BTW, the latest call KZLS choice was no doubt influenced by another Chisholm Trail Broadcasting station, KXLS 95.7, originally 99.7. That almost-full notepad, truly a collector`s item, page by page; I am open for bids, hi (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Re previous report about 1640 Enid once known as KOAG with a note pad, here is my original report of it at beginning of *2013y*:

``** OKLAHOMA. 1640. Jan 3 at 0506 UT, Enid`s X-bander had a new call and a new brand, ID as KOAG, ``All Ag, All Day``, ``keeping farmers and ranchers informed``. 0515 ADM ad, also ``The Farm Station``; segments on sunflowers, sorghum, reference to http://www.allagnews.com

This is something syndicated by Paramount Broadcasting Corporation. No affiliate list as such on the website, but the Listen Live page says: ``Listen to All Ag, All Day! live across the Texas/Oklahoma Panhandles at 800AM (KDDD) Dumas-Amarillo; and across the Texas South Plains at 900AM (KFLP) Floydada-Lubbock.`` So it looks like KOAG is only the

third station, they have not got around to adding on.

Further listening finds KOAG with IRN-USA news on the hour and half-hour (the latter with sports segment). At 1432 the news feed was suffering from IADs, digiarts and some hum. Legal ID still includes Enid-Oklahoma City. Plenty of market reports too.

This replaces KFXY, which lastly had a southern gospel music format, always subject to pre-emption for stupid ballgames, as I expect KOAG will be too. All this talk should mean less ACI for DX on 1630 and 1650. Maybe I`ll finally hear XEARZ.

Tnx to David Yocis of NRC who spotted the call change at FCC before I did on the local radio. Note that unlike most X-banders, this one is direxional with a figure-8 loop from east of Hennessey, between OKC and Enid so it favors both cities, but nulls toward the ENE and WSW, making it difficult in those direxions. Now they might wish to be non-direxional, better to cover ``all-ag`` areas in western Oklahoma rather than urbanity. And why not? It was a choice; they were not required to be direxional to protect anything, in fact making it worse for WTNI in Mississippi at night (Glenn Hauser, OK, DX LISTENING DIGEST)`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 17, July 26 at 1510 UT, still NO signal from K17JN-D, the 3ABN satellator, Enid`s only local TV signal. First noted missing on June 11, a sesquimonth ago. Rabbitears.info still does not X this as off the air, unlike K32MG-D, the only other Enid entry, which I can never recall seeing.

RF 20, July 26 at 1510 UT, the only BAD signal with slight tropo enhancement, very likely KQCW-DT Muskogee, Tulsa market (Glenn Hauser, Enid, WOR)

** PERU. Quick check while Bonaire SDR is active, July 24 at 0140 finds signals on these OA frequencies: 4775, 4810 if LSB-tuned, 4820, not 4955 (Glenn Hauser, OK, WOR)

** ROMANIA. 9500, July 28 at 0503 French S9/+10. It`s RRI Galbeni to WEu (Glenn Hauser, OK, WOR)

** SPAIN. 15520.001, Fri July 25 at 2156, REE S9+15/25 into UTwente prior to token English; at 2200, 15500 is S9+5/22 into Maryland SDR. No news, but right into feature about The Way of St James, some weird religious trek the Spaniards engage in. I listen no further (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Monday July 28 at 2200, token English from SNR for SAm, S9+20/30, direct but ZERO signals on the three 19mb channels! 15520, 15390, not even 15500 normally strong for NAm. Propagation? hardly anything else audible on 19m except WRMI and RHC. NO, into UTwente at 2226 check, nothing either except trace? of algo on 15520 and 17715 also blasting in there. Something`s very nonfunxional at Noblejas. O, preview topic was about antibiotic resistance, WHO; 2201 news leading with EU/US agreement on tariffs (Glenn Hauser, OK, WOR)

** SPAIN [and non]. 15500 S7/S8 & 15520, July 29 at 0657, weak open? carriers. Strongly suspect REE testing after absence during the 2200 broadcast. Only other 15500 usage per EiBi is KSDA at 11-12, and REE never between 0200 & 1400 depending on day of week. 15520 only REE but not now. Nothing detected now on 17715 or 15390. Woofferton is propagating OK on 15505 (Glenn Hauser, OK, WOR)

** SPAIN. 15500, July 29 at 2200, this SFR is still absent for N America, notright at Noblejas, but the others are back on, but since it`s Tuesday, Sephardic, almost Spanishic, not Englishic. Weak 15390,

fair 15520, and booming S9+20/30 on 17715 direct tho for S America (Glenn Hauser, OK, WOR)

** SPAIN. 15500, July 30 at 2200, SFR no signal for N American token English still today, but audible on 15390 S5/S7, better 15520 S8/9+10 direct and best by far 17715 at S9+20/30 despite S American aiming; previews something about poetry; 2201 news leads with Kamchatka earthquake, of course, tsunamis, fires in Ávila, Extremadura, evax (Glenn Hauser, OK, WOR)

** TURKEY. 11785.024+, July 25 at 2156, VOT into UTwente, dead air at S9+40/45. By next check 2200, is modulating but tone QRM of about 1 kHz; seems to be on both USB and LSB, so not QRM; and same thing heard into Maryland SDR. Therefore, it`s a transmission, not reception defect. Something`s always erroneous at Emirler. Reducing bandwidth helped, but must reduce too far to diminish it. I listen no further, altho it might have been possible to notch it out (Glenn Hauser, OK, WOR)

** TURKEY. 11785, July 26 circa 2220, quick check at UTwente to confirm that VOT is not off the air today. Elsewhere, I heard that a record temp of 50.5 C has hit Turkey (Glenn Hauser, OK, WOR)

** TURKEY. 9750.006-, Sun July 27 at 1850, VOT English S9+30/45 into UTwente during `The Pulse of Turkish Foreign Policy` about the TRNC. 1853 ``always-by-your-side`` promo, 1854 music. 1857.7 `Letterbox` - Cemre is back from visiting Vienna, T-storms. 1) Mohammed Breyel??, KL, Malaysia. 2) -- --, Japan where it`s rainy season; handwritten with ink on paper, neat! 3) Juan Arsomola?, Spain. 4) -- --, W. Kalimantan, Indonesia, listened to stream. 5) Jayanta Chakroborty, India, 7275 was ``totally blocked``, 6165 QRMed too. Blackout? Emirler says there was a problem on 23/7 but OK on 24/7. 6) finally, Alan Holder, UK, cooled down from 30 to 25 C. Especially nice reply to this long-time listener. Ankara with summer heat. Spells name of new team member! But I miss it. Should spell *all* names slowly & fonetikaly. 1912 that is all (Glenn Hauser, OK, WOR)

** TURKEY [non]. 11785, July 28 at 2159, NO signal direct from VOT, nor at 2227 into UTwente; could be on accidentalternate 9875, not either, rather weak 9874.911, obviously Korea North. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004+, July 29 at 2159, VOT not off the air, IS & ID in English, S9+10/20 direct which should be sufficient but not with my noise level. At 2232 into UTwente when measured, S9+45, talk feature by Efsun the axentuated until 2248 music; 2253 s/off as if at 1230 on 17620, awry in Ankara, 2254 IS until 2255* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003+, July 30 at 2159, VOT S9/+10 direct seems deadair at first, vs high noise level, by 2202 definitely modulating. At 2238 into UTwente when measured, S9+55 with music. 2253 s/off as if 17620 at 1230, awry at Ankara; 2254 IS for 8 notes and chop*, no finesse, erroneous at Emirler (Glenn Hauser, OK, WOR)

** UKOGBANI. 7350.000, July 26 at 1901, S9+35 from Woofferton into UTwente, strange vocalizations by wide variety of human voices, bird sounds, airplane roar. As in this info via Alan Pennington, BDXC UK via Alan Roe:

``[WOR] Radio Love Warbler SW - Imminent at 1900 on 7350 via Woofferton! Radio Love Warbler will broadcast locally on 87.7 FM from a transmitter hosted by the National Coastwatch Institution, Folkestone, daily from dawn to dusk 19th July - 19th October 2025.

This is a project by British-Finnish artist Hanna Tuulikki: "What if a

bird could remix its own love song? Hanna Tuulikki's Love (Warbler Remix) brings this idea to life through the Marsh Warbler – a clever migrating bird that copies and blends the songs it hears on its journey."
https://www.creativefolkestone.org.uk/artists/hanna-tuulikki/

The above website also shows shortwave broadcasts from Encompass Woofferton (first tomorrow 26 July):

Radio Love Warbler SW
Broadcasting internationally on shortwave radio

26 July 2025, 19.00 UTC
Western Europe, Central Europe and Southern Europe
(7350 kHz)

9 August 2025, 19.00 UTC
Southern Europe, Southeastern Europe and Middle East
(9500 kHz) [...]

Full details:``
https://www.creativefolkestone.org.uk/artists/hanna-tuulikki/

Not quite full: duration, 1900 until when, 2000? Still going past 1937 (Glenn Hauser, OK, WOR)

** U K O G B A N I. 7350, July 26 at 1957, see previous report, `Radio Love Warbler` via Woofferton cuts to dead air, and shortly off with no announcement heard now nor earlier since 1900. Was S9+50 into UTwente. This was just in time for *another* hour of very weird sounds, see CANADA [non] (Glenn Hauser, OK, WOR)

** U S A. 28200+ CW, July 28 at 2214, only signal on 10m is JBA beacon, warbling dash, 20 T`s – too long to be E`s, then very fast ID starting with NST, which probably was meant to be TEST; and presumed the one I`ve heard several times as in WGB list: ``28200.5 N4WLO – Theodore AL USA EM50uo – #0/3 (14 May 2025) Note: Text × 3 + de ID only every min + dashes: starts at 15nd ends at 34nd``. QRZ.com: ``N4WLO USA flag USA, TIMOTHY W URBAN, 4801 WINKLER CT, THEODORE, AL 36582`` --- BTW, can it be coincidental that Theodore is near Mobile, home of the erstwhile coastal station WLO? Supposedly closed years ago but current EiBi shows only two frequencies for it, 8788 and 13158 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: confirmed UT Thursday July 24 at 0138 the 0130 on WRMI 5010, S9+100/20 into Bonaire SDR.

Also confirmed Thursday July 24 at 1630 on SW Gold Radio, Germany, 6160.001–, S9/S8 into UTwente.

WORLD OF RADIO 2305 contents: Alaska, (Armenia), Canada, Congo, Cuba, Eritrea non, Europe, (France), (Germany), India, Indonesia, Iran non, Israel and non, Korea North & South, Kurdistan non, Kuwait, Lithuania, Mali, Myanmar, North America, Palau, Poland non, Romania, São Tomé, Sicily, Slovakia, Switzerland non, (Turkey), (Ukraine), UK non, USA, (Uzbekistan); propagation outlook – (countries mentioned along with others not in order)

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2305 monitoring: missed checking Fri July 25 at 2030 on IRRS SW via AM Italia, 1323; anyone hear it? Checked later, 1323 was on the air, not 918.

Confirmed Friday July 25 at 2215 the 2200 on WRMI 9955, S5/S8 into Bonaire SDR with QRM; at 2220 into Maryland SDR, S9/+8.

Also confirmed Friday July 25 at 2230 on SW Gold Radio, Germany, 3975.001, S9+5/10 into UTwente.

Also confirmed UT Saturday July 26 at 0300 on WTWW 5085, ``the ministry of`` Glenn Hauser with WOR 2305, VG direct, and S9+10/20 into OKC SDR, no spurs on waterfall. 0329 postlude to 0330.25* chop.

``Thank you for keeping us updated on international radio. Hansjörg Biener date (YYMMDD) kHz UTC date (DDMM) country station/details sinpo HjBi further remarks : 250726 5085 0315 2607 USA WTWW, E, Glenn Hauser’s World of Radio 25432 HjBi``

Also confirmed Saturday July 26 at 1430 on SW Gold Radio, Germany, 6160.001+, S9 into UTwente.

Also confirmed Saturday July 26 at 1600 on WRN North America stream.

Also confirmed Saturday July 26 at 1730 on SW Gold Radio, Germany, 6160.001+ S9+5 and five words behind on 3975.001+ S8/S9 into UTwente.

Not confirmed Sat July 26 at 1930 on WA0RCR, MO, no signal vs noise level into several SDRs in IL, IA, MO, not close enough. Next:

2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new, to be confirmed];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;

2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2305 monitoring: Confirmed Saturday July 26 at 1951 the 1930 on WRN North America stream and still not on

WRMI stream contrary to own sked.

Kept trying to confirm the first broadcast on WA0RCR, 1860 AM, MO, nominal 1930 Sat July 26. Lacking the nearby Warrenton MO SDR any more, it`s a challenge to detect it in the summer daytime. Nearest Kiwis are a few in Illinois, and further parts of IA & MO. Time is very variable, so might start much later than 1930 or even earlier. At 2014, the N9AZZ remote becomes readable S5 in noise with Amateur Radio Newsline; 2017 Vern spends a few minutes about ham fests, local events in St Louis area; and at 2023, ARRL Audio News. Maybe WOR started some 15 minutes later but by then no signal detectable. Did anyone hear me?

Confirmed Saturday July 26 at 2120 the new 2100 on WRMI 9395, S8/9+10 into Maryland SDR.

Also confirmed Saturday July 26 at 2230 on WRMI 15770, S9/+10 direct.

Also confirmed UT Sunday July 27 at 0315 just started close to nominal, ended at 0343, on WA0RCR, 1860 AM, S9+15/20 into N9AZZ remote.

Also confirmed Sunday July 27 at 1913 the 1900 on IRRS SW via AM Italia, 1322.994, S9+10 with storm crashes into nearby Noale SDR. Was JBA when first checked at UTwente. Not on 918 or 207. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new, to be confirmed];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2305 monitoring: confirmed Sunday July 27 at 2100 on WRMI 15770, S7/9+5 into UTwente.

Also confirmed Sunday July 27 at 2130 on SW Gold Radio, Germany, 6160.000 S9/+10 and delayed maybe a semiminute on 3975.002 S9+10 into UTwente.

Also confirmed Sunday July 27 NEW time of 2300 on WRMI 9395, S9+10 into W8BUG Knoxville SDR; checking first Athens GA, seemed to be cutting off and on the air as WOR opened, but must have been SDR problem. Yet no H2Ofall visible at W8BUG.

Also confirmed Sunday July 27 at 2330 on WRMI 9455, S8/9+15 into W8BUG SDR.

Also confirmed UT Monday July 28 at 0030 on WRMI 7780, S9+15/30 into S Texas SDR; however already in music at 0058, so cut short?

Also confirmed UT Monday July 28 at 0105 the 0100 Global Community

Radio webcast.

Also confirmed UT Monday July 28 at 0130 on WRN North America stream.

Also confirmed UT Monday July 28 from 0302 on Area 51 webcast only. The preceding `Lost Discs Radio Show` ran over claiming to be on 7415 & 5110, long-gone BCQ frequencies, but it was/is summer. From what year this recorded? Or are they now uttering outofdate frequencies. They were chopped off 5130 at 0300 sharp for s/off. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2305 monitoring: confirmed Monday July 28 at 1930 on SW Gold Radio, Germany, 6160.002+ S9/+20 and 3975.001+ S9+5/15 into UTwente.

Confirmed Tuesday July 29 at 1300 on WRMI 9955, JBA S7 direct.

Confirmed Tuesday July 29 at 1428 the 1400 on WRMI 9955, JBA even unto Maryland remote. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2305 monitoring: ``From: Richard Lemke, Alberta, Canada, the desk of Richard’s listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees, World of Radio (didn’t hear #my own radio), QSB Fading, [WRMI]:
9455 kHz, 2357, music no ID, 2330, 2346, 2357 (35442), S5 signal, 2358, July 27 UTC 2025 [Sun]
9395 kHz, voice barely heard, 2359, July 29 UTC 2025 [Tue] (Lemke, Richard -AB)``

Confirmed Tuesday July 29 at 2000 on IRRS SW via AM Italia, 1322.994+, S8 into UTwente; following Wavescan.

Also confirmed Tuesday July 29 at 2330 on SW Gold Radio, Germany, 3975.001+, S9+5/10 into UTwente.

But NOT confirmed Tuesday July 29 at 2330 on WRMI 9395, now replaced by preacher, on sked as `New Beginnings` until 2345, then Viva Miami fill. No, at 2345 it`s novelty music.

Confirmed UT Wednesday July 30 at 0030 on WRMI 9395, S9+10/20 into Knoxville SDR.

Confirmed Wednesday July 30 at 1930 on SW Gold Radio, Germany, 6160.001- S9/+20 and one word behind on 3975.002- S9+10, into UTwente.

Also confirmed Wednesday July 30 at 2100 on WBCQ 7490 -77 Hz = 7489.923, S9/+15 into NH SDR, calibration accurate compared to WWV. Again preceded by TOMBS to 2059 and a WBCQ promo/ID. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Peter Robinson, Preston UK, a very generous contribution via PayPal, to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. Date and time were omitted for this: 2202 UT July 22: 9842-9885 & 9975-10006 approx. range, direct, splatter spurs out of 9930 WTWW which is S9+50/60, also with the plus/minus 12.8 kHz spur carriers. The lower splatter range peaked around 9860. 9930 had been OK around 1500 (Glenn Hauser, OK, WOR)

** U S A. 9930, July 25 at 2216, WTWW is on, at 2218 into Maryland SDR, it`s splattering a bit up to 9950 on the waterfall. 5085, July 25 at 0102, the other WTWW is on so prospects are good for WOR at 0300 UT Saturday (Glenn Hauser, OK, WOR)

** U S A. WTWW, splatter again causing severe interference, even unto WWV: 9780-9885, 9975-10020, 10040-10080, VERY approx. ranges of splatter out of 9930, each peaking around the middle, and matching modulation on 9930 via another receiver: July 28 at 2209. Also with discrete spur carriers plus/minus 12.8 kHz on 9917.2 & 9942.8 (Glenn Hauser, OK, WOR)

** U S A. 9930, July 29 at 2217-2220, WTWW putting out several splatter ranges, roughly 9705-9760, 9800-9860, 9910-9950, 10010-10060, 10090-10155, modulation peaks matching 9930 TOMBS on another radio, PL-660. At least WRMI and WWV luck out this time (Glenn Hauser, OK, WOR)

** U S A. 9930, July 30 at 2215, WTWW S9+40/50 direct, but NO widespread splatter unlike yesterday, not even +/- 12.8 kHz discrete spurs, just a bit of raised noise 9320/9340 (Glenn Hauser, OK, WOR)

** U S A [and non]. Pre-`AAAWWW` WBCQ chex, July 25 at 2349 into NH SDR: 3265 off. 5130 off. 6160 off but CRI English via Kashgar to S Asia at 23-24 is poorly audible. 7490 -78 Hz = 7489.922 is S9+10/15 with FKB. 9330.00 with WLCR Portuguese is S6/S9. Just before *2356, 5130 -85 Hz = 5129.915 cuts on with IS & ID.

UT Sat July 16 at 0000, 5130- starts something else, presumably `The Intelligence Report`, ex-6160. And 7490 is already in `WTO` theme of `AAAWWW`, opening interjexion ``another day, another no-dollar``, so it`s a repeat as expected of last week`s show as I reported in detail then. Never mind. However, something else on 6160: see CANADA [non]! (Glenn Hauser, OK, WOR)7

** U S A. 17790, July 28 at 2202, WRMI blasting CNN as biased and losing ratings: sounds like Bob Biermann as on `Truth2Ponder`, rather than `Classic Redneck Radio` as sked on System E. This frequency also much stronger than usual, at 2217, S9+20/30, hard to believe still aimed at S America (Glenn Hauser, OK, WOR)

** U S A. 17790, July 29 at 1455, WRMI with IS & ID loop prior to programming starting at `Top of Hour``. S9 direct. This frequency has lately been much stronger than usual, so I`ve asked Jeff if it still be on the 160 degree azimuth toward S America (Glenn Hauser, OK, WOR)

** U S A. 17790, July 29 at 2200, WRMI still too strong at S9+30/40 direct, this time with `Classic Redneck Radio`, right off the bat instructing us to pronounce it ``Yahwah``, not Yahweh. Geez, what a pedant their deity is. No reply from Jeff re my inquiry whether no longer on 160 degree beam; probably means he does not want to discuss it, if he got my msg. July 30 at 1842, 17790 is back to a JBA carrier (Glenn Hauser, OK, WOR)

** U S A. 9980, WWCR-4 off the air per own sked, has been on, with weird ambient music, with occasional Morse code and/or 5-digit numbers by YL in English, underneath, most ending in -8. What`s this? From tune-in at 2016 to 2100 with no annouoncements, WWCR ID and Pat Boone Show, not sked now either.

Roger Thauer in Germany explains:
https://www.facebook.com/wrmiradio

WRMI will be participating in this special project, along with our partner Telediffusion de France (TDF), and with WWCR in Tennessee and WBCQ in Maine. Below are the UTC days, times and frequencies in kHz where you can hear the broadcasts on WRMI and TDF. Note that there are five separate audio tracks that are broadcast on five different frequencies for each transmission. I'm sorry we don't have the exact frequencies that WWCR and WBCQ will be using.

ChatGPT said: ``It looks like Requiem for Radio: Full Quiet Flutter (RFR: FQF) is not a regular WWCR broadcast but rather a live 60-minute performance piece by
Amanda Dawn Christie and collaborators. It’s a site-specific, interactive sound-art work commemorating the now-demolished RCI shortwave towers in Canada
Facebook+9IOTA Institute+9amanda dawn christie+9

🎧 What RFR: FQF Actually Is --- A live performance, often staged in art venues such as Ottawa’s National Arts Centre (July 23–26, 2025) or Moncton, NB (June 5–6, 2025) IOTA Institute. It combines theremin, sensors, bowed cow-bone cello, saxophone, and simultaneously tuned shortwave radios from around the world
IOTA Institute amanda dawn christie.

Notably, “Deviant Receptions” is one of five segments that is transmitted via multiple shortwave stations live, but the Full Quiet Flutter component itself isn’t a standalone radio broadcast
wwcr.com+10IOTA Institute+10musicworks.ca+10

WWCR Involvement? After reviewing WWCR’s program schedule and transmitter listings, there is no indication that World Wide Christian Radio ever scheduled a
broadcast of Requiem for Radio or RFR: FQF
wavefarm.org+11wwcr.com+11National Arts Centre+11

WWCR programming is focused on religious and talk shows — no arts or special-event blocks are listed that would accommodate a performance piece like this. roger``

Here is the full item from WRMI on FB:

``Special Series of broadcasts commemorating Radio Canada International:
Requiem for Radio: Full Quiet Flutter (RFR: FQF) is a 60-minute live

performance for human bodies, electrons, and radio waves. Architecture, technology, history, and the human body come together in this near-supernatural conjuring of the spirits of the demolished Radio Canada International (RCI) shortwave towers. Structured with thirteen movements for the thirteen radio towers, the performance follows the format of a traditional requiem, but for the RCI shortwave site that was once located near the border of New Brunswick and Nova Scotia from where it transmitted shortwave radio around the world from 1944 to 2012.

The performers on stage interact with an elaborate set of invented and modified electronic instruments that use sensors, custom circuits, and wireless technology to play the ghosts of the radio towers with radio waves.

The largest of these invented instruments, taking up most of the stage, is a scale model of the RCI site, in which each of the thirteen towers is equipped with sensors, that when touched, trigger haunting droning sounds that were recorded with contact microphones placed on the actual RCI tower before the site was demolished. The thirteen tower recordings are filtered to create the thirteen notes of a chromatic scale, thus allowing the performers to play it like a larger-than-life keyboard, simply by touching it with their skin.

This performance also involves a theremin sending control voltage to trigger ghostly images of the towers and the sounds they once made, a bowed instrument played with the bone of a cow that lived beneath the RCI towers, a saxophone, a choir, shortwave radios, and transmissions sent from five separate sites on different parts of the planet to be mixed in real-time in the theatre.

While technological in nature, this performance remains one about connection – between people, places, and the unseen forces that bind us all.

WRMI will be participating in this special project, along with our partner Telediffusion de France (TDF), and with WWCR in Tennessee and WBCQ in Maine. Below are the UTC days, times and frequencies in kHz where you can hear the broadcasts on WRMI and TDF. Note that there are five separate audio tracks that are broadcast on five different frequencies for each transmission. I'm sorry we don't have the exact frequencies that WWCR and WBCQ will be using, but here are the ones for WRMI and TDF:

0000-0100 UTC July 24: 15770 (WRMI), 17790 (WRMI), 5850 (WRMI), 15290 (TDF)
2000-2100 UTC July 24: 15770 (WRMI), 9395 (WRMI), 21600 (TDF)
0000-0100 UTC July 25: 15770 (WRMI), 17790 (WRMI), 5850 (WRMI), 15290 (TDF)
2000-2100 UTC July 25: 15770 (WRMI), 9395 (WRMI), 21600 (TDF)
0000-0100 UTC July 26: 15770 (WRMI), 17790 (WRMI), 15290 (TDF)
2000-2100 UTC July 26: 15770 (WRMI), 9395 (WRMI), 21600 (TDF)
Good listening!`` (Glenn Hauser, OK, WOR) See also CANADA [non]

** U S A. 9980, July 25 at 2215, this WWCR-4 is on again with gospel huxter, audible at Bonaire where I`ve just checked WOR on 9955. At 2217 into Maryland SDR, S9/+20 with praise music. Still supposed to be totally off per program sked. It might have stayed on past 0000 for Requiem for Radio, but did not (Glenn Hauser, OK, WOR)

** U S A. 9333/9367 approx., July 28 at 2207, spur field out of 9350 WWCR-2 which is blasting in as usual; meanwhile 9330 WBCQ-6 is JBA (Glenn Hauser, OK, WOR)

** U S A. 9335/9365, July 30 at 2213, spurfield out of 9350 WWCR at

S9+50 (Glenn Hauser, OK, WOR)

** U S A. 15150, July 27 at 1522, NO signal from WMLK. Nor have I run across it for several days. Website ``program guide`` shows a bunch of TV station times for the Sacred Name Telecast. Can`t find even a frequency sked for SW, but HFCC registered days 1 thru 6, Never on Sabbathdays: 12-17 15150, 1730-2230 17525, 23-04 9275. I believe 17525 has been absent for months, and the other two very erratic at best. However, ``WMLK Live Radio`` is streaming. They call themselves ``Assemblies of Yahweh`` -- God`ll get `em for that!! Misspelling His Name; it`s YAHWAH, just ask Classic Redneck Radio. The Hebrews/Semites were never very careful with their vowels (Glenn Hauser, OK, WOR)

** U S A. 1240.19 kHz, July 25 at 0630 UT, het against 1240.0 pileup, presumably the usual KCRT Trinidad CO, U1 250/250, which has been off-frequency for many years, yet missing from:
https://mwlist.org/mwoffset.php?khz=1240
with lots & lots of other US graveyarders more slightly askew, but nothing higher than Ecuador on 1240.15. This was on the inside randomwire around the ceilings due to lightning. Getting a 100% definite ID of KCRT would be helpful, such as tuning it nearby in the daytime (Glenn Hauser, OK, WOR)

** U S A. Re: 1700, KKLF, stuck in a 16-second loop for hours and hours:

``Glenn et al., These days many stations “local offices” do not exist. In the case of KKLF their owner, who is Claro Communications, has the address that you see in the AM Radio Log. You will notice in the next edition that won’t change. The mailing address for all of the corporate owners’ stations of religious broadcaster Relevant Radio is listed at their corporate address in Lincolnshire, IL… Unfortunately, that is the way it is these days, and it is not a “Joke” that we list the best available contact for stations in these days of corporate owned radio in America. 73, Wayne Heinen N0POH, Editor, NRC AM Radio Log, Aurora, CO``

Wayne, the ``joke`` I meant was not about the address but the ``programming``. However an address 359 miles away suggests that there is no one in The Metroplex responsible for keeping the station running smoothly. Of course the same thing can happen totally locally (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, July 27 at 0612 UT, KKLF in normal ops, not a 16-second loop; ID in English as ``Jalapeño Radio Network 95.7`` which is a mere translator also in Richardson TX, K239DA, 60 watts at 99 meters HAAT (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 9960, July 27 at 0618 RV, music at S6/S8 about same strength on meter as 9955 WRMI, but RV quite louder (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, July 27 at 0218, that intriguing JBA carrier has appeared again, as weak as Estación 4940 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, July 28 at 0456, JBA carrier direct again, even weaker than 4940 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, July 29 at 0013, JBA carrier into Bonaire SDR, much weaker than 4940 at S9+. Trying to get an idea whence 4975 emanate, evidently not America South (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, July 29 at 0648 & 0705, JBA AM carrier, direct. Of course could be WHemham, but seems right on frequency and constant, not interrupting. Few 40m HAMs are usually just below 7300. No

broadcasters sked now, only CRI and VOK at other hours (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235.00, July 30 at 0625, JBA carrier again like last night. Surely a broadcaster, but still nothing listed in HFCC, Aoki or EiBi (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 18125 USB, July 29 at 2209, CQ 17m in English over and over from ?CR2OLS; no replies so he gave up after 2 minutes. Always uttering clear fonetix for the suffix, but never for prefix! maybe TR2? Anyhow first letter sounds with a long E, so I check all possibilities in QRZ.com without any hits. Nor any hits at dxcluster/dxheat (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 28340 USB, July 29 at 2201, OSOB is QSO in Spanish lacking IDs, not even any beacons. No hits at DXheat/cluster (Glenn Hauser, OK, WOR)
